

SPANNING BACKUP FOR OFFICE 365

ENTERPRISE-GRADE BACKUP AND RESTORE FOR MAIL, CALENDAR, ONEDRIVE, & SHAREPOINT

BENEFITS

Spanning Backup for Office 365

- Minimizes risk of data loss and assures availability of data
- Helps meet audit and compliance requirements for backup and recovery
- Reduces employee downtime by empowering users to easily restore lost data

KEY CAPABILITIES

Automatic, daily backup and recovery for Office 365 Mail, Calendar, OneDrive, and SharePoint, including:

- Automated, daily, and on-demand backup
- Point-in-time backup and accurate, granular restore
- Cross-user restore from one Office 365 account to another
- Industry-leading security
- Complete status monitoring
- End user restore capabilities

Maintain Productivity and Compliance in the Cloud

You've made the move to Office 365 in an effort to reap the benefits of the cloud. To ensure business continuity and to meet compliance demands, now you must protect your critical data from loss due to ransomware, malware, user mistakes, malicious behavior, or sync and configuration errors.

Your responsibility to protect corporate data does not change when you migrate to Office 365. Microsoft provides platform protection to ensure they never lose your data, but they cannot protect your data from your employees or external threats.

That's where Spanning Backup for Office 365 comes in.

Ensure Data Protection for Office 365

Thousands of customers around the world use Spanning to protect their SaaS application data. As the most reliable and trusted SaaS backup and recovery solution, Spanning Backup for Office 365 enables automated, daily and on-demand backups, allowing you to easily restore historical point-in-time versions of your organization's data. Spanning also enables customers around the world to comply with local data residency or data sovereignty regulations by providing data centers in the United States, Europe, and Australia.

Protecting your organization's data is effortless with Spanning Backup for Office 365. It provides accurate, granular data restoration and enables administrators and end users to restore data exactly how it was, reducing costs and meeting RTOs (recovery time objectives).

With Spanning Backup for Office 365, you gain full transparency and administrative control over your backup and restore processes. It's designed for a mobile workforce, enabling end users and IT admins to accurately restore data from their desktop, tablet, or mobile device. You won't need to worry about the cost or amount of storage to purchase. All Spanning accounts receive unlimited backup storage.

Automated and On-Demand Backups

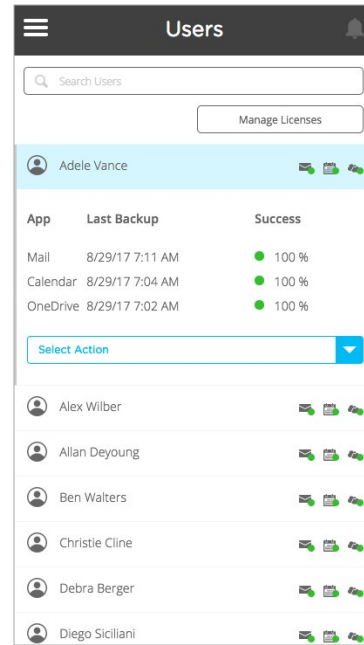

With Spanning Backup for Office 365, your data is automatically backed up and protected every day.

- **Automated daily backup:** Your data is automatically backed up every day in the background.
- **On-demand backup:** Perform additional backups as needed at any time.
- **Cloud-to-Cloud Storage:** Start protecting your data in minutes and never worry about managing storage.

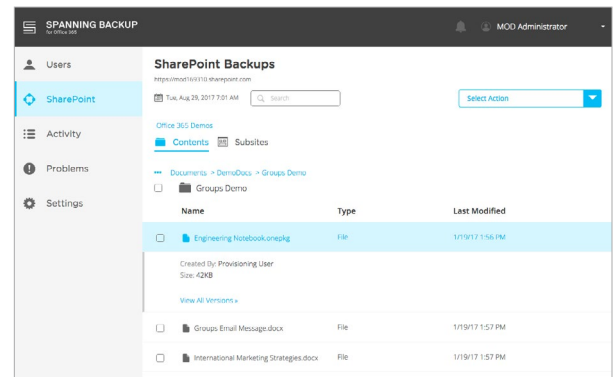

Quick And Easy Restore

Spanning makes it easy to find lost data fast, and restore it right back into Office 365 and SharePoint; either into the original user’s account or into another user’s account.

- **Point-in-time restore:** Access historical snapshots or versions of all your data and restore to any previous version with 100% accuracy.
- **Granular search and restore:** Easily find data and restore individual items or entire folders.
- **Cross-user restore:** Enable administrators to quickly restore data from one user account into another.

Automated and on-demand backup.

Find it easily. Restore it immediately.

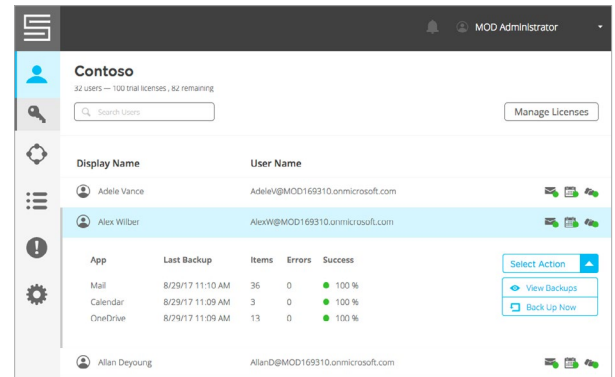

Automated, daily and on-demand backups for OneDrive, SharePoint, Mail, and Calendar.

Complete Transparency

Spanning Backup for Office 365 gives administrators the visibility and control they need to manage backups for their organization.

- **Easy license management:** Easily manage licenses and add or remove backup services for individual users.
- **Status history:** Monitor and resolve backup errors and enjoy complete confidence in your backups with a detailed status history.
- **Activity log:** Maintain an immutable, detailed record of all administrator and user actions.

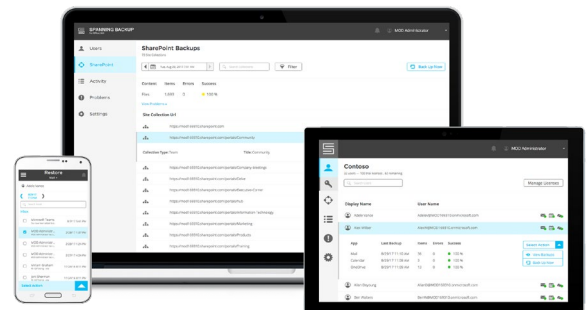

Full visibility into your organization’s backups.

Extreme Usability

From free trial through purchase, installation and use, Spanning Backup for Office 365 is easy to use. With a 'set it and forget it' design approach, it requires minimal training and enables you to manage data backup and restore functions quickly and easily, freeing up your time for more strategic tasks.

- **Intuitive design:** End users can quickly find and restore data with minimal training.
- **Mobile-ready:** Adapts to the way organizations work and use Office 365—mobile-first, cloud-first.
- **Unlimited storage:** Spanning Backup for Office 365 offers unlimited storage and backup versions.

Conveniently manage backup activities from any device - mobile, tablet or PC.

“With organizations of all sizes moving to Office 365 at a rapid pace, it is critical that the same rigor for data protection that IT places on data center data is also applied to cloud-based data—and folks need to understand that most SaaS solutions don’t do protection, preservation or retention, just availability. Bad or missing data halts productivity, so what Spanning technology does is critical to minimizing risk of data loss in this application.”

Jason Buffington SENIOR ANALYST, ESG

Data Protection That You Can Trust

Trust and transparency are non-negotiable with respect to cloud application backup. Because data protection is critical to your organization, we provide trustworthy products and services that prove their value through reliability, accuracy, and meaningful, backup and restore insights. Everything we do, from product design to customer support, is focused on earning customer trust, confidence, and peace of mind.

Spanning secures your data with the following:

- **SSAE 16 Compliance:** Spanning has successfully completed the SSAE 16 SOC 2 Type II audit process, a rigorous evaluation of operational and security controls.
- **Availability:** Spanning Backup delivers a 99.9% uptime SLA (service level agreement).
- **Strong Encryption:** Spanning Backup protects data in transit with 128-bit SSL and at rest with 256-bit AES encryption, one of the strongest block ciphers available.
- **Third-Party Certifications and Audits:** Spanning Backup has earned TRUSTe privacy and security seals and is certified under the US-EU Privacy Shield.
- **HIPAA Compliance:** For U.S. customers, Spanning is a HIPAA-compliant solution and is happy to walk your organization through our Business Associate Agreement.
- **Intrusion Detection:** Our systems constantly guard against intrusion with log analysis, file integrity checking, policy monitoring, rootkit detection, real-time alerting, and active response.
- **Compartmentalized Access:** Access to production servers is granted only to named Spanning employees who have specific operational requirements. Changes to the production environment access control list are tracked and auditable.
